SUMMARY

Aspiring Data Scientist with hands-on experience analyzing **5,000,000+ rows of records** through Python, SQL, Pandas, Matplotlib, Tableau, and Power BI. Recognized as an innovative problem solver, persuasive communicator, and natural leader who thrives in fast-paced, high-pressure environments. Who also leverages data cleaning, visualization, and statistical analysis to uncover actionable insights into clear business recommendations. Driven by intellectual curiosity and a passion for using data to improve efficiency.

SKILLS

Python | Pandas | NumPy | DataVisualization | Matplotlib | Plotly | Data Storytelling | SQL | Tableau | Machine Learning | scikit-learn | NLTK | Tensorflow | Basic HTML

TECH PROJECTS

Video Game Sales Forecasting | June 2026

Analyzed global video game sales data to identify consumer purchasing trends and develop data-driven advertising recommendations for different geographic markets.

- Cleaned and merged **20,000+ records using Python (Pandas) and SQL**, improving data accuracy and creating a reliable dataset for analysis.
- Improved the **advertising strategy to target 100k clients worldwide**, designing selling reports with **20 data visualizations and exploratory analyses using Matplotlib and Seaborn**.
- Presented **10 actionable business insights through data storytelling and Numpy statistical analysis**, recommending region-specific advertising strategies to maximize campaign effectiveness across North America, Europe, and Japan.

Telecom Customer Trend Analysis | May 2026

Analyzed customer usage and revenue data for a telecommunications provider to identify the most profitable subscription plan and develop data-driven marketing and advertising recommendations.

- Improving data quality and created a foundation for revenue analysis across multiple datasets by processing and analyzing **300,000+ customer usage records using Python, Pandas, and NumPy**,
- Identified key profitability drivers through calculating monthly revenue for **500 customers** by aggregating call, text, and data usage and applying plan-specific pricing models.
- Informed advertising budget and customer acquisition through **12 visualizations of customer behavior and plan performance using Matplotlib and statistical analysis**.
- Uncovered that the **Ultimate plan generated higher average revenues by \$12/person per month** and customers **outside the NY-NJ region produced greater revenues by \$5/person per month**.

Grocery Shopping Pattern Analysis for Instacart

Project to analyze Instacart customer shopping habits to uncover trends and insights, leveraging data cleaning, visualization, and statistical analysis techniques.

- Ensured data accuracy and consistency for further analysis of **500,000 orders** through cleaning and **merging large datasets of up to 2,000,000 rows** from multiple sources using **Pandas and SQL**.
- Identified patterns and trends in customer purchasing behavior, performing **10 statistical analyses with NumPy and built-in Excel functions and Google Sheets**, to find that 25,000 people put bananas in their cart first so that should be advertised on the opening screen.
- Answered key business questions of, popular product categories and peak shopping times through creating **10 matplotlib visualizations and using data storytelling**.

EXPERIENCE

Olive Garden | Culinary Professional, Chef, Trainer, Server, To-Go Specialist, & Inventory Coordinator

Feb 2020 – Feb 2022 | Jul 2024 – Present | Part-Time

- Delivered personal service to **100+ guests per shift** by balancing customer support, order management, and operational responsibilities in a fast-paced, high-volume environment.
- Contributed to maintaining a **95% guest satisfaction score for 1000 daily guests** by collaborating across front-of-house and back-of-house teams and proactively resolving customer concerns.
- Coordinated the receiving and organization of **400+ inventory units weekly** by implementing structured inventory management and stock rotation processes to support operational efficiency.
- Maintained compliance with **FDA food safety standards** by executing quality-control procedures.
- Adapted by successfully cross-training in **six operational functions**, while training onboarding **25+ employees** across multiple roles by creating clear process guidance, coaching team members, and promoting operational consistency.

My Custom Closet | Professional Closet Installer

Jul 2024 – Present | Part-Time

- Translated client needs into customized storage through **completing 300+ custom closet projects** by coordinating design, ordering, and installation.
- Maintained **5 Star customer satisfaction** by translating client needs into customized storage solutions and ensuring installations met detailed design specifications.
- Resolved on-site installation challenges by applying analytical problem-solving and critical thinking to maintain project timelines and quality standards.
- Managed **3 concurrent projects per week** by maintaining organized workflows, monitoring project requirements, and communicating effectively with clients and team members.

VOLUNTEERING

Church of Jesus Christ of Latter-day Saints Mission | Farmington, NM

Feb 2022–Feb 2024

- Coordinated **3,000+ appointments and lessons** by managing schedules, maintaining detailed records, tracking while **improving KPI's**, and consistently following up with community members.
- Built trust and religious engagement with diverse religious audiences by addressing questions, **communicating over 30 complex topics clearly**, and tailoring messages to individual needs.
- Led community service initiatives involving **100+ wood-cutting projects, 50+ garden preparations**, and home-building efforts, strengthening relationships within the Navajo Nation.
- Developed **10 educational youth and adult programs** by teaching Addiction Recovery classes, Seminary, tutoring students, and collaborating with local leaders to increase community participation.

EDUCATION

TripleTen | 9-month Data Analyst Program | 2026

Main topics: Python, EDA, Statistical Data Analysis, Business Analytics, SQL. Included applied projects.

Montgomery County Community College | 2019-2020, 2024

Notable Course work completed: Psychology, Behavioral Psychology, Statistics, Calculus

Perkiomen Valley High School | Highschool Diploma | 2019
